Important Information for Our Guests from Out-of-Town

In the interest of making your surgical experience with us as smooth as possible, please review the following important information.

Postoperative Transportation and Care:

Some of our patients from out of town choose not to inform anyone that they are having a surgical procedure done and will not have a responsible adult accompany them on the day of surgery. While we recognize this as every patient's right, we must also ensure that each patient is properly cared for post-operatively. Each patient must have a responsible adult accompany her/him from the surgical facility to the hotel in which they are staying. We are happy to refer you to several nursing services we have used over the years. Please contact the nursing service of your choice to arrange for your postoperative care and transportation, if you will not have a friend or family member with you after your surgery. This service should be arranged at least a week before your surgery date.

If you do have a responsible adult accompanying you throughout your surgical experience, please consider allowing them attend your pre-operative appointment so that they will know what to expect during your recovery.

Postoperative Visit with Dr. Kavali

Your first postoperative visit with Dr. Kavali will take place 1-5 days after your surgery, depending upon the procedure you have done. Please plan to stay in the Atlanta area at least until that visit is complete.

Atlanta Resources:

Nursing Services:

Nursing services can be arranged through HHC Medical Staffing. Once you have scheduled your surgery and if you do not have a responsible adult to accompany you immediately after surgery, please consider calling 678-571-7890 to arrange for someone to assist you as you recover. You may use any nursing service of your choice, but please try to have this arranged at least one week prior to your surgery date.
